The Florida survey was centered in the Glades area of Palm Beach County, home of thousands of Negro farm laborers and White packing house workers through the fall, winter and spring farming season. The survey in the Glades area included the examination of scholastic records of 1,119 migrant school children, the interviewing of 665 migrant families and of teachers, school principals and organizations or individuals with knowledge of migrant family activities, and problems.

HUNTING SEASON OPENS

The annual hunting season starts off with a great big BANG! today, so if the familiar faces of your nimrod friends are missing for the next few days it won't be hard to guess what they are doing.

Devils And Rams In Annual Battle Wednesday Night

With the Pahokee Blue Devils pretty well banged up in their Vero Beach Battle Friday night and having an open date this Friday, their coach, Webb Pell, has been letting them take it rather easy this week in their preparations for the annual battle with the Belle Glade Golden Rams for possession of the Lions' Bill Young Memorial Trophy which will be held on the Belle Glade Field Thanksgiving Eve, Wednesday, Nov. 25.

The Blue Devils, at present entrenched in third position in the Suncoast Conference race and with a season's record to date of 6-2-1 in all games played, have a statistical edge over the Rams. But statistics have little bearing in this traditional contest and this year's Rams, though they have played erratically, have nevertheless won the reputation of being spoilers.

The Blue Devils, after a disappointing opener, blossomed out into one of the best teams in the Conference and if they are in top form Friday night the Rams will have their hands full trying to spoil Pahokee's bid for the seventh consecutive win.

The trophy was won by Belle Glade in 1949 and has been in the hands of the Rams ever since, although the two teams played a tie game twice.

All we can say is: May the best team win and go early if you want a seat in the stands.

Blue Devils Defeat Vero Beach 32-6 In A Thriller In Pahokee

Ah, sweet fruits of victory! How good they must have tasted especially to Halfback Hal Rosenberg and Tackle Tommy Elliott, last year's first string regulars, as the Pahokee Blue Devils rolled over platoon after platoon of Vero Beach Indians until there wasn't a war whoop left in the tribe when the Devils had completed, 32-6, their avenging action to wipe out the blot of last year's 60-7 Indian massacre.

It was a nasty night on Laid Field Friday (particularly for the Indians) with intermittent drizzles fogging the spectator's spectacles, but in spite of this the stands filled up with hundreds of fans who are proud as punch of the 1953 Blue Devil football squad. Not a soul complained of dampness after the starting whistle and the Blue Devils began a smoothest performance of the season.

Quarterback Robert Goodson, one of the fastest and quickest thinking field generals in the Suncoast Conference, took Vero's kickoff on his own 18 and ran it back to the Pahokee 28. In 11 plays, with Goodson, Fullback George Mills and Halfback Buford Justice and Hal Rosenberg each taking turns at carrying the ball, the Blue Devils were up to the Vero 13-yard line where Goodson in a keeper play swept around right end and found a touchdown hole made by a tremendous block thrown by Mills, who cut down two men in a single blocking action.

The Blue Devils scored again in the first quarter when big Buford Justice broke loose from his own 41 and showed his heels to the entire Vero secondary defense in a 59-yard gallop to pay dirt, then Justice went through the Indian line for the extra point. Short passes from Goodson to Ed Ronnie Elliott, and to Rosenberg accounted for two more touchdowns in the second quarter, with Mills charging through center for another extra point. The final touchdown for the Blue Devils was made in the middle of the last quarter in a thrilling 96-yard sig-sagging run by Rosenberg who had Vero's Jerry Carter breathing down his neck all the way. The Indians came through with their lone touchdown in the final moments of the game when Halfback Don Morgan successfully got around right end from the Pahokee one-yard line with less than a minute left to play.

It was a hard-fought game with the Blue Devil line a wall of iron men except in the last quarter. The Indians, however, left their marks. Justice limped out of the game in the middle of the third quarter with a hip injury and stayed out the remainder of the game. Some of the other Pahokee players were also banged up in that rough fourth quarter when Vero's Fullback Jim Young would not be stopped and kept tearing through for consistent gains drag-

ging two or three Blue Devil tacklers with him about every time.

One of the outstanding features of the game was the manner in which Goodson outfoxed the Indians in the first and second quarters. The visitors, alerted for the running of Justice and Rosenberg, were constantly kept off balance through the first half by Goodson's keeper plays for nice gains around both ends of the line. They also found the Pahokee quarterback knows how to pass when he thinks an aerial play is necessary.

In the steady improvement of the 1953 Blue Devil team since the opening of the season nothing has been more heartening than the development of the line into a powerful, smoothly clicking unit both on the offense and defense. These hard-working linemen, including Jimmy Lee Hoyle, Tommy Elliott, Elmer B. Elliott, Holten Herring, Wiley Howell, Ronnie Elliott, Donald Waddell, Mike Ginsberg, Jon Pope, Joe Parker and others, get just as many hard knocks and are as important as a good backfield in the development of a winning team, but most of the publicity glory goes to their ball-carrying team mates. It is hard to single out individuals for special credit in a group that performs so smoothly as a single unit but the work of Jimmy Lee Hoyle on defense has really been outstanding. To watch Hoyle sail into the opposition on tackle after tackle you would never dream he has been working under the handicap of a lame shoulder for most of the season.

Cinematic Chatter

By Malcolm Miller

Hello everybody! It is hard to believe that Stephen McNally, seen in so many "hard" roles was once a lawyer and practiced for two years in New York before deciding he'd rather be an actor. Big, black-haired and good looking, he has what is undoubtedly, a wonderful physical background for the rough and tough roles he assumes in many outdoor, action pictures. McNally was born in New York City on July 29 and went to Saint Francis Xavier high school before articulating at Fordham. His late-father was a school principal in Manhattan and he has two brothers and a sister who are teachers in New York. He made six pictures in Hollywood under his real name of Horace McNally before the studio changed it. He assumed the name of his second son, Stephen, but he has been

bothered ever since with the thought that his first son, Horace, no longer uses the "junior" after his name. The McNallys have three sons and three daughters. Although Stephen works steady in pictures they have a modest home, are real earthy people and a family that is very close to each other. See you at the movies—Mal.

Acting Governor's Racing Board In Definite Action

MIAMI—Acting Governor Johns' newly appointed State Racing Commission lost no time in taking action on the disputed racing date question and at a meeting last week revamped the schedule that has been set up by the former board to give Gulfstream an additional four days of racing at the peak of Florida's tourist season.

Hialeah Race Course lost two mid-season dates when the new

board ruled it couldn't run the extra days as an extension of its regular racing season for the benefit of four Florida Universities.

The Commission authorized Tropical Park to open Dec. 1 and run through Jan. 15, and if it wants to run two days for scholarships it may open Nov. 28. The former board had allotted Tropical dates from Nov. 30 through Jan. 16, including two scholarship days.

Hialeah will open Jan. 16 and run 40 consecutive days through Mar. 3 under the new board's schedule. This cuts off two days previously allotted by the old board.

Gulfstream will now open Mar. 4 and run through April 19 or April 21 if it decides to have two scholarship days.

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 ... a \$37.50 Bond will be worth \$67.34 ... and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 ... in 9 years and 8 months, you'll have \$2,850.70 ... and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

Now even better! Invest more in Savings Bonds!

Christian Science Group Of Canal Point

The Lesson-Sermon to be read in Christian Science churches Sunday explains the spiritual nature of man's true identity. Subject is "SOUL AND BODY."

The Golden Text is from Matthew (6:22): "The light of the body is the eye; if therefore thine eye be single, thy whole body shall be full of light."

Bible selections include these words of Paul: "For in him we live, and move, and have our being; as certain also of your own poets have said. For we are also his offspring" (Acts 17:28).

Passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "Mortals must look beyond fading, finite forms, if they would gain the true sense of things....We must look where we would walk, and we must act as possessing all power from Him in whom we have our being" (p. 264).

Rotary And Lions In Joint Meeting To Hear ACL Vice-Pres.

The Pahokee Rotary and Lions Clubs held a joint luncheon meeting in the Woman's Club building Thursday to hear an address by Cook C. Howell of Wilmington, N. C., vice president of the Atlantic Coast Line Railroad, on "The Decent and Moral Way of Living."

Introduced by Rep. B. Elliott, who served as program chairman at the joint meeting, the speaker deplored the decadence in public morals revealed in the corrupt practices of high-level government officials that have been aired at hearings of Congressional investigating committee in Washington, D. C., during the past few years. He told how the average citizen, both as an individual and working through the cooperative effort of a civic group, can influence the moral tone of his nation by guarding and improving his own morals and that of his family and his community. Corrupt morals in government or any other phase of our national life cannot long exist without the tacit consent of the people, he said.

Migrant Children—

Continued from page 1
education ages of 7 to 17 years do enroll in public schools, the overall average enrollment, including both Negro and White children, being close to 90 percent in the Glades.

In the school attendance phase of the survey the Rev. Greene said there was scarcely any problem in the White group which averaged 87 percent in attendance and both the enrollment and attendance of Negro school children have improved considerably since the Palm Beach County Board of Public Instruction began three years ago the employment of a full-time Negro school attendance officer.

The survey also showed the Negro group of migrant children, because they are in a majority, create a much more serious problem of teacher loads in Glades public schools than do the White group.

In special testing programs supervised by Dr. H. A. Curtis, professor of education at Florida State University, in Glades schools at the level of 5th and 8th grades during the survey, it was found the migrant pupils do not pull down the scholastic level of Glades public schools.

The greatest handicap to migrant school children, the speaker

said, is that they seldom have the opportunity to complete a full school year, averaging only approximately 30 weeks of schooling a year because of the time required for migrant families to move from one employment center to another. Conditions in the Glades as a whole were better than in the other areas studied in the survey because the residence of migrant families extend over a longer period of time in the Glades than in most of the other areas studied and public schools are in session through the entire period.

Among the recommendations made by the speaker in concluding his talk: That the State Department of Education employ specialists in migrant education to work in the migrant centers of the State, that a study be made to determine the merits of special schools for migrant children, and that public school teachers and principals make a special effort to work more closely with migrant families in order to gain a clearer understanding of their problems.

Following the talk, a discussion of the topic, in which the speaker answered questions from the audience, was led by Mrs. Don Hillier, club president. Mrs. Frank Friend, program chairman, introduced the Rev. Greene. Dr. H. A. Curtis of Tallahassee and Mrs. Capron, member of the County School Board, were also introduced as guests.

Pioneer Park Plan—

(continued from page 1)
ceed 50 cents in value and the Christmas wrapping of the gifts to be judged at the meeting.

Mrs. Leo Maxwell, program chairman, introduced Mrs. Frank Friend who presented the program on "Plant Propagation" and gave a demonstration of grafting. On display at the meeting was a Thanksgiving arrangement of fruit in a cornucopia.

Mrs. E. F. McIlwain, librarian, reported three Garden Club flower books are lost and asked members to make a thorough check at their homes for the books and return them if found.

It was reported 10 members of the local club attended the lecture on "Church Arrangements" sponsored recently by the Belle Glade Club.

Mrs. Hillier was assisted with the serving of refreshments by Mrs. Ruth Meredith, co-hostess.

FEDERATION

The Pahokee Woman's Club will be represented at the District 10 Federation meeting in West Palm Beach today by its president, Mrs. Don Hillier; also by Mrs. Blake Dunson, Mrs. B.
